EXPERIENCE

IT Support / Web Support Specialist (Contract)

March 2025 – Present

Dallas Bully Breeders – Dallas, TX

- Provided technical support for a production website by diagnosing and resolving functionality and performance issues
- Communicated with non-technical users to understand issues and provide clear solutions
- Diagnosed and resolved technical issues related to site functionality and user experience
- Performed ongoing system maintenance, updates, and basic performance monitoring

Front Desk / Administrative Support

June 2025 – May 2026

Halozyme Therapeutics, Inc. – San Diego, CA

- Acted as the first point of contact for employees, contractors, and visitors, identifying issues and directing them to the correct teams
- Managed contractor access by verifying sign-ins and issuing badges for building access
- Handled incoming phone calls, answered questions, and routed calls to the correct departments
- Maintained accurate records for visitors, contractors, and access requests

Software Engineering Intern

May 2024 – July 2025

SuperApps – San Diego, CA

- Provided technical support for internal tools by diagnosing and resolving software and system-related issues
 - Used Jira ticketing system to log, track, prioritize, and resolve support requests
 - Troubleshooted issues across Windows, macOS, and Linux environments
 - Assisted users by identifying root causes, documenting fixes, and improving system reliability
 - Collaborated with cross-functional teams to improve performance, usability, and system stability
-

PROJECTS

Chattrance – Real-Time Chat Application

- Built and supported a real-time messaging application with authentication and database-backed messaging
- Troubleshooted connectivity, performance, and data storage issues during development and testing

MirrorScript Programming Language

- Collaborated on the development of an experimental programming language
 - Assisted in debugging, testing, and improving a custom parser and interpreter
-

IT HOME LAB EXPERIENCE

Windows Administration & Active Directory Home Lab

- Built and maintained Windows 11 virtual machines using VMware Fusion.
 - Created and managed Active Directory user accounts, password resets, account unlocks, and security groups.
 - Joined client machines to a domain and configured user authentication and access permissions.
 - Troubleshoot common help desk issues including login problems, network connectivity issues, printer errors, and Windows updates.
 - Utilized networking tools such as ping, ipconfig, tracert, and nslookup to diagnose connectivity problems.
 - Worked with Windows administrative tools including Device Manager, Event Viewer, Task Manager, and Command Prompt.
-

EDUCATION

San Diego State University – San Diego, CA
